

# Business Analyst Intern

WE CARE ABOUT FOOTBALL

## Job information

Division: UEFA Events SA

Contract type: Fixed Term

Start date: 01.02.2024

End date: 31.07.2024

Location: Nyon

## Main goal

As a Business Analyst Intern, you will play a crucial role in the planning and execution of future sports events by focusing on data preparation and analysis. This internship provides a unique opportunity to gain practical experience in the sports management industry while contributing to the success of globally recognised events. If you are passionate about data analytics and eager to make a meaningful impact, we invite you to join our team and be a part of shaping the future of sports management.

## Key responsibilities

Data collection and preparation:

- Contributing to the collection, cleaning and pre-processing of identified data sets to ensure their accuracy and completeness
- Collaborating with various departments to gather event-related data (e.g. procurement unit, controlling unit, event units)

Data analysis and visualisation:

- Supporting the delivery of in-depth analyses of historical event data and identifying key planning indicators

Collaboration

- Collaborating with existing teams responsible for data visualisation and reporting

## Profile

Experience required:

- less than 1 year experience in an international environment.

Education:

- Bachelor's in business analytics/administration, finance, engineering, data science, statistics, or a related field.

---

Languages:

- Proficiency in English or French

Additional requirements:

- Strong analytical and problem-solving skills
- Proficiency with data analysis tools (e.g. Excel)
- Experience using data visualisation tools (e.g., Tableau) would be a plus
- Ability to work both independently and collaboratively in a fast-paced environment
